

## **A (very partial) list of other texts on discrete math**

- Discrete Mathematics and its Applications by Kenneth H. Rosen, published by McGraw-Hill (Also used in CSE 113).
- Mathematical Structures for Computer Science by Judith L. Gersting, published by Freeman.
- Introductory Combinatorics by Richard A. Brualdi, published by Prentice Hall.
- Applied Combinatorics by Fred S. Roberts and Barry Tesman, published by Pearson Prentice Hall.
- Introduction to Graph Theory by Robin Wilson.
- Computational Discrete Mathematics: Combinatorics and Graph Theory with Mathematica by Sriram Pemmaraju and Steven Skiena.
