TABLE 8 Operating Characteristic Curves for Tests About Means*

(a) One-tail tests based on normal distribution; $\alpha = 0.05$.

(b) One-tail tests based on normal distribution; $\alpha = 0.01$.

(c) Two-tail tests based on normal distribution; $\alpha = 0.05$.

(d) Two-tail tests based on normal distribution; $\alpha = 0.01$.
